SKILLS

Front-end Development
- Angular (or other front-end frameworks like React or Vue.js)
- HTML5, CSS3, JavaScript/TypeScript
- Responsive design and mobile-first development
- UI/UX design principles and best practices

Back-end Development
- Spring Boot (or other Java frameworks)
- RESTful API design and implementation
- Database management systems (e.g., MySQL, PostgreSQL, MongoDB)
- ORM frameworks (e.g., Hibernate, Spring Data)

Security
- Authentication and authorization mechanisms (JWT, OAuth)
- Cross-site scripting (XSS) and cross-site request forgery (CSRF) prevention
- Data encryption and secure transmission protocols (SSL/TLS)

DevOps and Tools
- Version control systems (e.g., Git)
- Continuous integration and continuous deployment (CI/CD)
- Containerization and orchestration (Docker, Kubernetes)
- Cloud platforms (e.g., AWS, Azure, Google Cloud)

Testing and Quality Assurance
- Unit testing frameworks (e.g., JUnit, Mockito)
- End-to-end testing frameworks (e.g., Protractor, Selenium)
- Performance testing and optimization

Agile Methodologies
- Scrum or Kanban
- Collaborative tools (e.g., JIRA, Confluence)

Additional Skills
- Understanding of banking and financial services domain
- Problem-solving and analytical skills
- Team collaboration and communication skills

PROFILE

I am a skilled Full-Stack Developer with a strong background in both front-end and back-end development. Equipped with a Master's in Computer Science and extensive hands-on experience, I specialize in crafting user-friendly applications using technologies like JavaScript, Angular, Spring-Boot, and SQL. I am dedicated to innovation, teamwork, and delivering impactful solutions that drive business growth.

WORK EXPERIENCE

Associate Full-stack Developer

Solutions For Banking Private Limited　　　　　　　2021-2024

Online Banking Platform Development:

- **Front-end**: Developed a secure and user-friendly online banking interface using Angular, allowing customers to manage accounts, transfer funds, and view transaction history.
- **Back-end**: Implemented robust RESTful APIs with Spring Boot to handle user authentication, account management, and transaction processing.
- **Security:** Integrated strong security measures, including two-factor authentication, encryption, and secure session management to protect sensitive financial data.

Loan Application System:

- **Front-end:** Built an intuitive loan application portal with Angular, enabling users to apply for loans, upload documents, and track application status.
- **Back-end:** Created backend services using Spring Boot to process loan applications, perform credit checks, and manage loan disbursements.
- **Workflow Automation:** Automated loan approval workflows, integrating with third-party services for document verification and credit scoring.

Mobile Banking Integration:

- **Front-end:** Engineered responsive mobile banking interfaces with Angular, ensuring a seamless user experience across devices.
- **Back-end:** Utilized Spring Boot to create APIs for mobile banking features, such as account balance checks, fund transfers, and transaction alerts.
- **Real-time Notifications:** Implemented real-time push notifications for transaction alerts, security updates, and promotional offers.

EDUCATION

Master's in Computer Science

Avila University
Grade -GPA - 4
Address- Kansas city, , United States

BSc(Hons) Computing

London Metropolitan University
Grade -GPA - 3
Address- London, United Kingdom
